About Company

Arista surfaces is a producer Of quartz stone located in **Gujarat**, India with a capacity to manufacture **21000 SOFT** of quartz stone daily.

Arista surfaces is an engineered stone used for a variety of applications in the building and construction industry, be it residential, non-residential or Commercial. Arista surfaces can be used either in existing buildings, homes, offices, etc. or in new construction projects instead of tiles or natural stones, to enhance durability, strength as well as to minimize maintenance costs for the end users. Arista surfaces stone eliminates most Of the innate deficiencies Of natural granite stone as well as enables designs that are customized to the end user's choice.

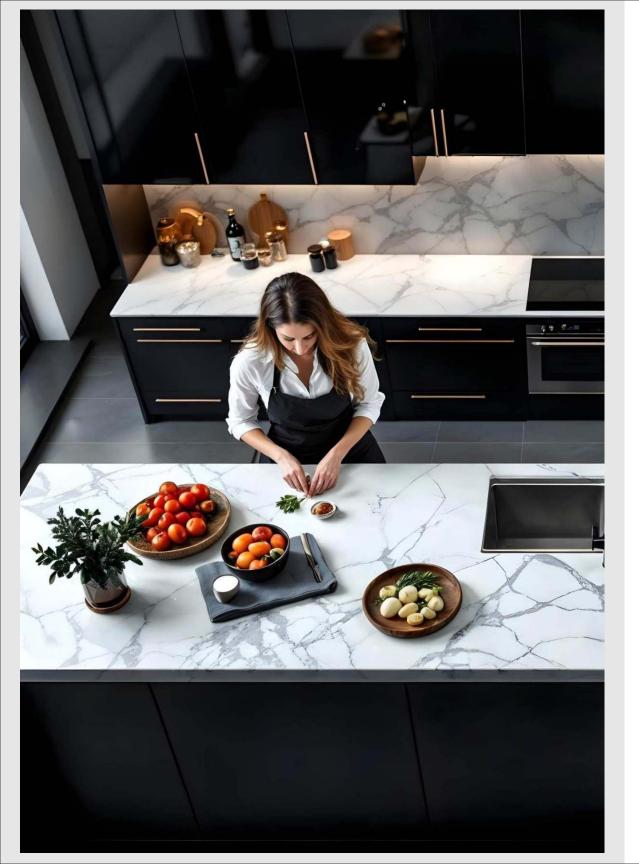

Arista surfaces has been setup with the highest level of quality and systemic controls that ensures consistent production with minimal wastage. Arista is leading by example and is transforming quartz into breathtaking surfaces and exceptional customer experiences. Arista's management is composed of top management from the Indian engineered stone industry with experience in sales and manufacturing with multinational experience from USA and Singapore.

Technology On Top

The technology of quartz stone involves engineering natural quartz crystals with resins and pigments to create durable, non-porous surfaces. Quartz slabs are manufactured through a process of mixing, compressing, and curing under heat and pressure, resulting in a strong, scratch-resistant material.

Cleaning quartz stone is easy and requires minimal effort. Simply wipe the surface with a soft cloth and mild soap mixed with warm water. Avoid harsh chemicals, abrasive pads, and strong acids to prevent damage. For tough stains, use a non-abrasive cleaner or a mixture of baking soda and water. Regular cleaning keeps quartz looking shiny and new.

- EASY TO CLEAN
- CHEMICAL RESISTANT
- SCRATCH RESISTANT
- FROST RESUSTANT
- STAIN RESISTANT

Application area

Quartz stone is widely used in interior and exterior applications due to its durability, aesthetic appeal, and low maintenance. It is commonly used for kitchen countertops, bathroom vanities, flooring, wall cladding, and staircases. In commercial spaces, it is preferred for reception desks, tabletops, and decorative panels.

Edge profile

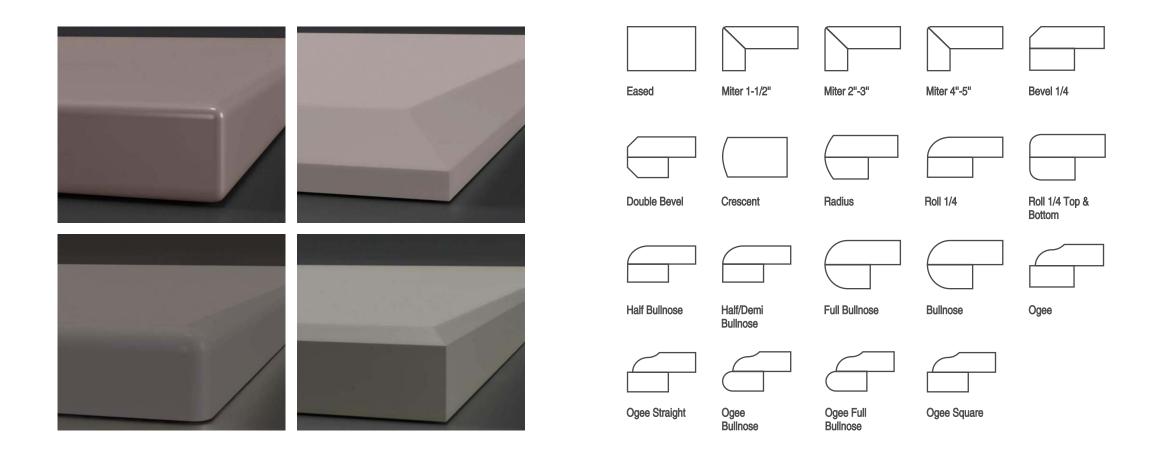

Your surface is not complete without an edge profile to complement your slab selection and space.

With keros stone, selecting the best fit is easy.

The unique properties and durability of quartz surfaces allow for a wide range of edge profile design options.

Many edge profiles are possible, from a standard edge to laminated or mitered edges which create the appearance of a thicker slab.

All edge details should have a minimum 1/8" radius on anyprofile, for both top and bottom edges.

TEST PERFORMED	TEST STANDARD	RESULTS
App. Density Kg/dm3	EN14617-1	2.2-245
Water Abrosption	EN14617-1	<0.04
Flexural Strength (Mpa)	EN14617-2	50°-60°
Dimensional Stability	EN14617-12	Class A
Impact Resistance (joule)	EN14617-9	4 - 9 Joule
Compressive Strength (Mpa)	EN14617-15	170 - 220
Abrasion Resistance	EN14617-4	Groove Length = 21.1 mm
Frost Resistance	DIN 52104	Complies with Standard
Surface Hardness (Mohs Scale)	EN 101	6.0 - 7.0
Stain Resistance	ANSI Z124.6	Pass
Wear & Cleanability	ANSI Z124.6	Pass
Chemical Resistance	ANSI Z124.6	Pass
Chemical Resistance	EN14617-10	Class C4
Resistance to Acids	ASTM C 650	Not Affected
Linear Thermal Expansion (30°-60°)C¹	EN14617-11	2.6 x 10
Boiling Water Resistance	NEMA LD3-3.5	Pass
High Temperature Resistance	NEMA LD3-3.6	Pass
Cigarette Test	ANSI Z124.6	Pass
Fire Classification	EN13501-1	Wall Cladding: B-S1-d0
		Flooring & Stairs: B-F1-S1
Stip Resistance	EN 14231	Wet: 13-21 SRV, Dry: 43-53 SRV
Rediation	GB 6666-2010	Complies with Requirement of
		Standard
Thermal Shock Resistance	EN14617-6	No Visual Defects After 10 Cycle
		Loss in Flexural Strength = 0.02% - 0.05%
		Loss in Mass = 0.07% - 1.1%
Freez & Thaw Resistance	EN14617-5	No Defects after 25 Freeze Thaw Cycle
Glossiness Reflection	%	55-70
Surface Slip Resistance HONED 400	DIN 51130	R9
Static Coefficient of Friction	ASTM C 1028	Dry: 0.8, Wet: 0.6
